

About Us

What do we do?

ScienceUtsav is a parallel educational program for children of age 05 to 14 years. We have created an interactive learning platform for the participants through STEM based hands-on activities, science experiments, fun projects, science games, puzzles, science expeditions, role plays and other innovative pedagogy techniques.

We use STEAM based cohesive learning paradigm to help children appreciate the things around them with help of Pure Science, Robotics, Coding, Electronic based hands on experience, IOT etc which are integrated with the curriculum based on textbooks

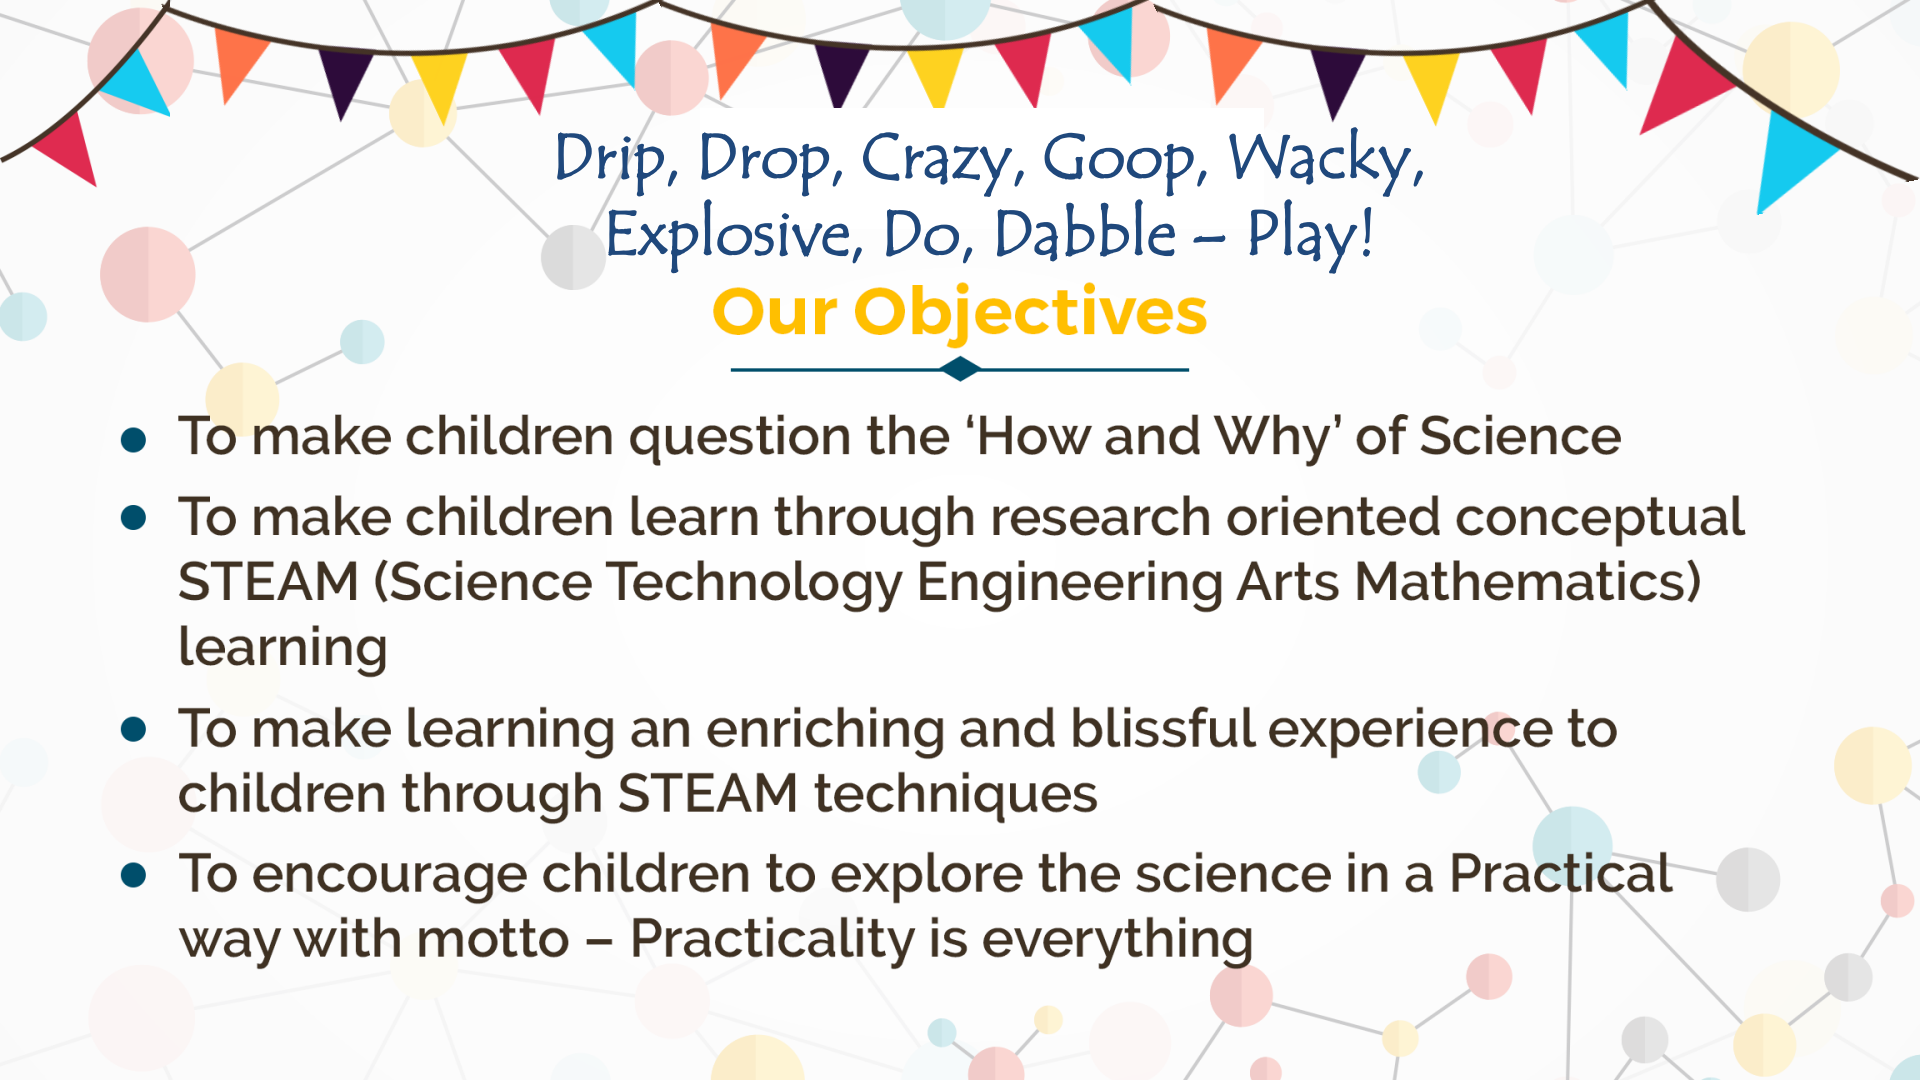

Why not celebrate Science ?

Why not make SCIENCE, TECHNOLOGY, ENGINEERING, ARTS & MATHS too, a FUN occasion for children

Let's **COMMENCE** with this **CELEBRATION** at your Place

Drip, Drop, Crazy, Goop, Wacky,
Explosive, Do, Dabble – Play!

Our Objectives

- To make children question the 'How and Why' of Science
- To make children learn through research oriented conceptual STEAM (Science Technology Engineering Arts Mathematics) learning
- To make learning an enriching and blissful experience to children through STEAM techniques
- To encourage children to explore the science in a Practical way with motto – Practicality is everything
